

TOKYO™

WITH DENVER E-RIBBON BASIC BURNER

Tokyo is a gorgeous round bio fireplace with a horizontal half-circle across the lowest part of the fireplace.

The depth of Tokyo increases at the bottom, creating an inclined edge, which is especially present when seen from the side.

This bio fireplace can be built-in as a recess in a wall and can therefore be utilized in more than one way and do not require that much space.

STANDARD FINISH

Black

FRONT FINISH

Polished Black White BSS Brushed brass Brushed copper

TECHNICAL INFORMATION

Capacity:	4L
Burning time:	7-20 hours (Depending on flameintensity)
Heat efficiency:	3,2 kW/h
Net weight:	27 kg
Room size:	64 ³
Burner:	Denver e-Ribbon Basic 670
Flametray:	450mm
Materials:	Aluminium and 6mm hardened glass
Finish:	Standard: Black
Front:	Black / White / Polished steel / Brushed steel Brushed copper / Brushed brass
Power supply:	220V - 240V / 50 Hz

- Safety Sensors / Safety Chamber
- Fuel Level Indicator / Flame Level Indicator
- Remote control
- Bluetooth / App
- 6 flame levels (1-5 + ECO-Wave)
- No chimney required - no smoke, ash or soot

ACCESSORIES

- Fuel Funnel / Sponge

BIOETHANOL

For use and information about bioethanol, please visit our webiste decoflame.com.

(Please be aware that bioethanol is essential to a proper use and gurantee of your product).

DENVER E-RIBBON BASIC BURNER

Operating:

Step 1	Turn on the electronics of your Denver e-Ribbon Basic™ by pressing the  button.
Step 2	Fill in the right amount of bioethanol in the fuel tank by verifying the level on the fuel level indicator.
Step 3	To ignition the fireplace. Press the  button on the control panel. After about 3 minutes, the first flames will appear around the centre of the flame tray.
Step 4	When the filament is no longer red (approx. 10 min) it is possible to adjust the flames.
Step 5	To switch off the fire at any time – also during the warming-up phase – press the  button on the control panel. The flames will disappear within a few minutes.

Use the supplied remote control or download the Decoflame App to your mobile device for controlling the biofireplace.

Thermal Output: max 2.9 kW
Fuel Type: bioethanol 96%
Room Volume: min. 58 m³
Radio Frequency: 433.92 MHz
Bluetooth Code: 0001
Manufacturer: Decoflame ApS - Made in Denmark

1. Download and install the Decoflame App by scanning the QR code above corresponding to your smart device's operating system.

2. In order to pair your fireplace with your smart device, start the fireplace by pressing the 'ON' button. Start the App and choose your fireplace. Insert the code from YOUR rating plate, like the one highlighted above.

3. Once your device is paired, the fireplace should be visible on the app. You are now able to change the name of the fireplace. **Note:** You are able to pair more than one fireplace like described in the step nr. 2 and give them different names.

4. Once you have selected your fireplace, you can turn it on by pressing 'START'. If the fireplace has already been turned on using the control panel, you can now monitor the fuel level and the consumption.

5. For the 'Turn Off Timer' press the clock icon in the lower right corner. To adjust the remaining time, slide the dot to the left and right and select 'SET TIMER'. The remaining burning time can be changed by repeating the above mentioned steps. To cancel the timer select 'CLEAR TIMER'.

6. For adjusting the flame intensity, select the desired level on the left side of the screen. (1-lowest, 6-highest) Should there not be enough fuel for the selected burning time - the fireplace will shut down automatically. Select 'STOP' to turn off the fireplace.
