

MEDIA FOR GORGEOUS GEOLOGY!

LUXURY STONE MEDIA

Eight collections of pebbles and stones predesigned for ease of application are available for the discerning builder of visual delight in the fireplace. Bangor has neutrals with a granite power player from the beaches and bedrock of Maine while Bracebridge shows Nature's pink impressionistic palette in Muskoka's famous granite with black veins. Chalcedony Bloodstone shows Arizona's red gems in a powerful contemporary combination and Jamaica's Green Grotto caves inspired golds, greens greys and white in the Green Bay selection. Midnight blues and moonlight in Maui present an exotic but regal impression in Maui Midnight. Greys and cool subtle neutrals take us to Pacific lighthouses and rocky cliffs in Portland. Warm and hot desert tones of the Southwestern landscape are painted into Red Rock Canyon and Vermont Quarry gives us solid granite in greys, whites and blacks in a popular display.
