

# DIRECTIONS, WARNINGS & CAUTION

**Enhance a Fire kits** are perfect for enhancing the looks of your vented gas log sets, gas fireplaces, electric fireplaces and gas fire pits – both Natural Gas and LP.

## DIRECTIONS FOR GAS LOGS/FIREPLACES:

- 1 Please remove old decorative material in a COLD Gas log/Fireplace set.
- 2 Open kit bag and place in front of the firegrate.

## DIRECTIONS FOR GAS FIRE PITS:

- 1 Please remove old decorative material in a COLD firepit.
- 2 Open kit bag and place media on top of burner.  
DO NOT put media on pilot.

## DIRECTIONS FOR ELECTRIC FIREPLACES:

- 1 Unplug fireplace.
- 2 Remove old decorative material and replace with new media.

### Warning:

Please follow directions of the Vented Gas log & Fireplace manufacturer. In case of Fireplaces, DO NOT put **Enhance a Fire kits** on top of the burner or pilot. Improper placement of embers may result in high CO emissions, poor ignition and sooting. Poor combustion can even be fatal. DO NOT use for Vent Free Log Sets unless directed by Manufacturer.

### Caution:

Avoid creating and breathing dust. If dust is present use NOISH approved respirator. Wash skin with soap and water.
