

A close-up photograph of a metal bar, likely made of stainless steel, with the brand name "safretti®" engraved on it. The bar is positioned horizontally and is surrounded by bright, yellow-orange flames that appear to be rising from it, suggesting it is being heated or used in a high-temperature environment. The lighting is dramatic, with the flames providing the primary light source, casting a warm glow on the metal and creating deep shadows. The background is dark and out of focus, emphasizing the bar and the fire.

safretti®

Specifications

Riviera, design by Jort Mercuur

Material tube: Brushed aluminium.

Material back: Black safety glass.

Material burner: Brushed stainless steel.

Material cover: Brushed stainless steel.

Details burner: Removable, capacity 2 litres,
burning time 6-8 hours.

Note: The Riviera LE GL contains a specially
designed burner with a capacity of 1.7 litres,
burning time 8-10 hours.
