

PAINTED ASSORTMENT

INSPIRING VARIETY OF COLOURS

Colour variety offers unlimited design possibilities. Following bold choices made by users we provide freedom in adjusting the accessories to the style of a specific interior.

We have our own environmentally friendly painting shop. The paints used by us are safe for the environment and people. We offer a choice of colours classified according to the RAL Classic palette.

We also make decorative coatings. We offer products in stylised antique, hammered and structural finishes with small-grain surface. Using original technologies we manufacture accessories in the industrial Technoline version and in many other variants, depending on the needs of the customer.

We are flexible. We are the only manufacturer in the Polish market who delivers orders for individual sets with non-standard finishes. Unique accessories adapted to exceptional interiors are created in our paint shop.

COLOUR, STRUCTURAL AND DECORATIVE FINISHES AVAILABLE IN THE BASIC OFFER

Products in RAL Palette colours and other structural and decorative finishes available on special order.

Presented colours may differ slightly from the actual colours. In order to precisely select the colours it is necessary to use the original colours chart available from the sales representatives.

How to order painted products?

In order to place an order for painted products:

- the catalogue numbers with the RAL suffix should be supplemented with the chosen number from the RAL palette (e.g.: 6017 00191.RAL9010),
- the catalogue numbers with the S suffix should be supplemented with the chosen number of structural paint (e.g.: 6017 00191.S0002).
